

Answer key-1

1. Click the [provided link](#) to the Movie Data sheet and select the "make a copy" button.
2. Delete a column by right-clicking on the columns you want to delete or go to File > Delete column. Here we want to remove all columns except for movie titles, release dates, budgets, and box office revenues.
3. Our new sheet is by default labelled Copy of Movie Data. Let's rename our sheet to something else!

Use the completed test below to check your work!
